## Locations

**Richmond Road Campus**  
3400 Richmond Road

**Junior School Campus**  
820 Victoria Avenue

SMUS Camps has two locations this year. The Junior School campus in Oak Bay will host programs for younger campers with brand-new facilities and outdoor play spaces. Our Richmond Road campus will host our overnight, sports and programs for older campers.

## Camp Time and Duration

**Full Day Programs** run from 9:00am - 4:00pm with time for snack and lunch breaks built into the schedule. Drop-off is 8:30 - 9:00am and pick-up is 4:00 - 4:15pm. Campers at Junior School Campus can extend care until 5:30pm.

**Half Day Programs** run either 9:00am - 12:00pm or 1:00 - 4:00pm with one scheduled break.

## Hot Lunch Program

Full day campers at our Richmond Road Campus can enjoy a hot lunch program which will keep them fueled and energized throughout the day. With a salad bar and a different main dish every day, campers will have a variety of nutritious options to choose from. If you prefer to pack your camper's lunch, you can opt-out during registration.

## Cancellation and Refund Policy

Cancellations made up to 10 business days before the program start date will receive a full refund. We regret that we cannot issue refunds for cancellations made less than 10 business days before the program start date. There is no refund available if your child cannot attend camp for any given day of the program. Certain exemptions to this policy may apply in the case of illness or injury, in which case documentation will be requested. All requests for cancellations must be via email to [externalprograms@smus.ca](mailto:externalprograms@smus.ca).

## Adventure Camp

This summer, we are excited to introduce our new Adventure Camp! It is specifically designed for a small group active campers looking to explore nature and be outside this summer. We will go on at least three exciting off-campus trips every week and spend most of the day outside enjoying the fresh air. As a smaller and older group, the campers will have the opportunity to visit more places and explore more freely.

**Must be able to walk 3km comfortably and be interested in spending time outdoors.**

## Claymation Movie Production

Make your own clay characters come to life, just like Shaun the Sheep! Participants will work to build their own clay characters, sets and props; develop their own script; shoot their movie scenes; and then learn to edit and add sounds and special effects to complete the whole project. Don't worry, there will be plenty of time devoted to outdoor games and activities!

Jul 15 - 19	9:00 am - 4:00 pm	9 - 12 y/o	\$ 400
-------------	-------------------	------------	--------

## Introduction to Coding

Discover how much fun it is to build your own game! Students will be introduced to basic coding skills with Scratch and get to use those skills to make their very own games. Students will learn how to create their own 2D vector artwork to make characters and levels that are entirely their own. The final project is a game you can access and play or share with friends.

Jul 29 - Aug 2	9:00 am - 4:00 pm	9 - 12 y/o	\$ 400
----------------	-------------------	------------	--------

## Music Video Production

Make your own music and music video! Camp time will be split between digital music composition, video filming and editing. Use amazing software tools to craft your very own song from scratch. We will show you the basics of beats, baselines, chords, and melodies so that your song will sound awesome. Experiment with video, special effects, and TikTok style editing techniques to make your own video as cool as your tune.

## STEAM Sampler Zen Bot

Robotics isn't just the future, it's the here and now. In this hands-on camp, students will learn the perfect combination of electronics, 3D design and 3D printing, and working with basic tools for assembly. By putting together their own Arduino-powered robot, students will learn everything from assembling and fabricating parts to developing the skills needed to customize and create their own future robotic projects. Participants will learn how to review code and make modifications to impact the robot's movement.

Jul 2 - 5 (4-day camp)	9:00 am - 4:00 pm	9 - 11 y/o	\$ 400
Aug 12 - 16	9:00 am - 4:00 pm	9 - 11 y/o	\$ 500

## Jr Coding: Mission Code Breaker

Kids love secret codes and puzzles, and we'll explore all sorts of codes and mysteries that existed before computer programming like morse, nautical flags, trail markers, baseball signals, code wheels, treasure maps, and more. Using creative storytelling, each week our robots will learn how to crack another mysterious code or puzzle while we learn how to program the robots. No experience or device needed for this camp.

Jul 2 - 5 (4-day camp)	9:00 am - 4:00 pm	7- 9 y/o	\$ 400
Jul 22 - 26	9:00 am - 4:00 pm	7- 9 y/o	\$ 500

## Engineering an Eco City

Explore what it means to become a green architect and build your own environmentally friendly city! Students will learn about blueprints, how buildings can be made environmentally friendly, and construct their own solar powered city.

Jul 22 - 26	9:00 am - 4:00 pm	9 - 11 y/o	\$ 500

## Creative Makers Illustration

If your child loves drawing and making cartoons this animation camp is for you! During the week your child will learn animation skills for making their own films. Students will bring their sketchbook to life through animation while learning about designing and animating 3D characters. Explore different cultural graphic art styles from countries around the world such as Japanese anime character design. In addition, they will design their own storyboards and fabricate miniature characters. By the end of this camp, your child will have the chance to showcase what they have learnt and produced throughout the week by screening their stop-motion animation films!

Aug 12 - 16	9:00 am - 4:00 pm	7- 9 y/o	\$ 500
-------------	-------------------	----------	--------

## My First Passport

This fun program helps students develop a global mindset and build international awareness early in life! Explore cultural differences across countries, geography games, famous landmarks, world currencies, current global events, the role of international institutions like the UN, and more. Students role-play as diplomats and come up with solutions to key global problems like hunger, poverty and pollution.

Jul 15 - 19	9:00 am - 4:00 pm	7- 9 y/o	\$ 260
-------------	-------------------	----------	--------

## Little Inventor

In this “inventive” program, students design and create solutions to problems, teaming up to identify the need for a new invention, and producing real structures and solutions. In one STEM challenge, students build bridges using a variety of materials and experiment with how much weight they can hold. Students will also learn about famous inventors, and discuss how inventions improve our lives.

## Sound Design Camp

Sound Design Camp is a recording and music production camp for youth aged 12-17 presented by the Found Sound Project. Learners will spend a week creating, capturing and modifying sound for use in digital music-making.

Each composer in the project performs many roles – listener, sound recordist, audio engineer, player, editor and storyteller – in order to produce a composition that captures the learner’s unique way of listening and playing. Campers are guided in their exploration of modern digital tools through engaging, personalized instruction both in the field and sound lab. Learners will gain hands-on experience with microphones, MIDI controllers, computers and the industry-leading audio workstation Ableton Live 11.

Guided by experienced musicians and composers, learners will develop their unique artistic identity and deepen their relationship to the rich sonic world that surrounds us.
